

THE STATE OF SOUTH CAROLINA
Public Service Commission

FORTY LOVE POINT
HOMEOWNERS' ASSOCIATION

Docket no. 2017-292-WS
CAROLINA WATER SERVICES' REQUEST FOR RATE INCREASE

**MOTION FOR A SUPPLEMENTAL HEARING
REGARDING FORTY LOVE POINT**

FORTY LOVE POINT HOMEOWNERS' ASSOCIATION, LOCATED NEAR CHAPIN, SOUTH CAROLINA has intervened as a party of record in this action. Forty Love Point receives pass-through water services and wastewater removal services from Carolina Water Service.

The reasons for this motion are as follows:

1. PROBLEMS WITH WASTEWATER REMOVAL SERVICE: During the course of the above-captioned case, Forty Love Point has reached an agreement with Carolina Water Service to study the LETTS wastewater removal service in our area and implement changes.
2. Three residents along Lake Murray, with low-lying houses, have been experiencing wastewater backup in their houses whenever it rains. The problems have occurred since December 2014, when the homeowners contacted CWS, DHEC, and ORS and held meetings. Nothing happened to resolve the problem until this case was filed and Forty Love HOA intervened as a party.
3. Because many Forty Love residents live along the lake, the Forty Love HOA suspects that many other homes are experiencing this problem but are afraid to speak up because it might jeopardize the resale of their homes.

4. Carolina Water Service has engaged an engineering firm and has begun preliminary steps to alleviate the wastewater problem by adding rain gauges and additional pumps.
5. Forty Love HOA believes this engineering solution was implemented because we are in the midst of a rate case.
6. SUPPLEMENTAL HEARING. Forty Love HOA requests a brief, two-hour hearing be scheduled before the Public Service Commission in January or February 2019 to update the PSC on the progress of this repair project.

Respectfully submitted by,

DATE: 09/19/2018
